

# CANTALOOP

## THE POSTER

This is one of three files you need to print out and assemble in order to play the Cantaloop prequel.

The following two pages of this file show the left and right side of the A3 poster depicting the scenery of this game.

Take one of the two pages and cut it along the little black lines above and below the image. Then glue this page onto the other so that it covers the margin delimited by the little black lines.
